MEMORANDUM FOR: Director of Special Activities

ATTENTION: Chief, Intelligence Division

SUBJECT: Evaluation of Proposed ██████████ C-108C, 25X1A
11 June 1968

25X1A

REFERENCE: ████████-2728/66, 24 October 1966

1. This memorandum is a final review and analysis of Route 1076 in support of Idealist Mission C-108C to be flown on 11 June 1968 over water and along the periphery of the Peiping, Nan Ching, and Fuchou Air Defense Districts. This review is in compliance with this Office's responsibilities as set forth in the reference.

2. Analysis of Route 1076 indicates there is only a very remote chance of a SAM reaction if the route is flown as planned, thirty to forty nautical miles from the coast over water. Review of Route 1076 indicates the possibility of four MIG-21 reactions. The most recent available AOB information indicates the presence of four MIG-21's at Nan Chang (2826N/11556E), seven MIG-21's at Wu Hu (3124N/11823E), one MIG-21 at Yen Cheng (3326N/12042E), and four MIG-21's at Tsang hsien (3824N/11655E).
